

ZEROIL

Natural by nature

ZEROIL

Protection in just one coat

- ✓ Easy to use
- ✓ Invisible retouching
- ✓ No hazard symbols
- ✓ High water repellency

VERMEISTER
SOLUTIONS FOR WOOD FLOORS

ZEROIL, Protection in just one coat.

Consisting of a blend of particular vegetable oils, ZEROIL has been formulated to give softness and warmth to wood floors. The special composition of ZEROIL enhances the natural appearance of the wood and protects it from the inside while highlighting the grain. The high content of natural compounds and the absence of any volatile organic compound (VOC) together with the low environmental impact make ZEROIL the ideal product for green building. Zeroil provides the treated surfaces with high level resistance and water repellency, in just one coat.

Extremely eco-friendly

With its low odour impact and the absence of hazardous additives such as cobalt and ketoxime from the formula, ZEROIL guarantees a high standard of comfort living, confirming the low environmental impact typical of Vermeister products.

Formulated with renewable raw materials

The use of green technologies and renewable materials is fundamental for the competitiveness, sustainability and safety of medium and long term supply sources. In Vermeister we promote the use of renewable raw materials in order to improve the performance and reduce the environmental impact of our products.

Maintenance

Maintenance of coated floors must only be carried out using SOAP.OIL and/or DECK.CARE. Do not use alcohol, ammonia or cleaning products for hard surfaces.
