

**DESCRIPTION**

A solvent-based product for removing residue adhesive that may be left on pre-finished wood floors during laying.

TECHNICAL DATA CHEMICAL-PHYSICAL CHARACTERISTICS at 20°C (indicative values not constituting product specifications):

Stability and storage (in original, unopened containers stored in a cool, dry place) (months)	12
Standard packaging (Lt)	1

1 Lt

APPLICATION

Dampen a cloth with a small amount of CLEANER and wipe over the residue adhesive while it is still fresh until it has been completely removed. In the case of large quantities of adhesive, wipe over the floor a second time with CLEANER to prevent leaving marks.

NOTES

Always carry out a preliminary test to check the resistance of the finish to the main active ingredients contained in CLEANER. Do not use this product if changes are noted in the gloss or if the film becomes soft.

Safety precautions. Keep the product in a tightly closed, upright container in a cool place away from sources of heat. The product is classified and coded in compliance with EC Directives/regulations concerning hazardous substances. The information for the user is given in the relevant safety sheet. Empty containers or those containing slight traces of the product must be disposed of in accordance with local regulations. VerMeister S.p.A. guarantees that the details given in this sheet are provided to the best of the company's technical-scientific knowledge and experience; however, the company cannot be held responsible in any way for the results obtained with the products as the conditions of application are beyond the company's control. It is always advisable to check the suitability of the product to each specific circumstance. This sheet cancels and replaces all previous editions.
