

**DESCRIPTION**

Mixture of solvents to keep tools used with the Vermeister range of waterborne finishes in good condition. The careful formulation of the product maintains the natural softness of the bristles and hairs.

**TECHNICAL DATA** CHEMICAL-PHYSICAL CHARACTERISTICS at 20°C (indicative values not constituting product specifications):

Standard packaging (Lt)	10
-------------------------	----

**APPLICATION**

Wash the tools used for applying Vermeister waterborne primers and finishes thoroughly in water then soak them in W-CLEANER until they are next used.

Dry rollers and brushes perfectly before use.

To ensure the solvent remains effective, it must be replaced regularly.

**NOTES**

Dispose of used solvents according to the regulations in force.

10 Lt

Safety precautions Keep the product in a tightly closed, upright container in a cool place away from sources of heat. The product is classified and coded in compliance with EC Directives/regulations concerning hazardous substances. The information for the user is given in the relevant safety sheet. Empty containers or those containing slight traces of the product must be disposed of in accordance with local regulations. VerMeister S.p.A. guarantees that the details given in this sheet are provided to the best of the company's technical-scientific knowledge and experience; however, the company cannot be held responsible in any way for the results obtained with the products as the conditions of application are beyond the company's control. It is always advisable to check the suitability of the product to each specific circumstance. This sheet cancels and replaces all previous editions.
