

TECHNICAL DATA SHEET

DECK.RESET

Pre-treatment for decking and outdoor wood in general

DESCRIPTION

A highly effective watery solution for removing the grey patina on outdoor decking and wood products caused by the deterioration and washing away of the lignin. DECK.RESET restores the original colour of the wood that is then protected with the Vermeister oils for outdoor wood.

DECK.RESET can be used on decking, garden furniture, wooden gazebos and on all wood items located outdoors and on WPC.

TECHNICAL DATA CHEMICAL-PHYSICAL CHARACTERISTICS at 20°C (indicative values not constituting product specifications):

Application method	Spray, Roller, Brush, Pad
Average coverage per coat (g/m ²)	50 with spray or pad, 80 with roller or brush
Operating time for using spatulas, brushes, abrasive felts (minutes)	10
Operating time for using a pressure washer (min)	From 10 to 20
Stability and storage (in original, unopened containers stored in a cool, dry place) (months)	12
Standard packaging (Lt)	1/5

APPLICATION

Apply the product on the surfaces to be treated by spraying or using a roller, brush or pad. Leave the product to take effect and then remove the patina using a spatula, a brush, a disk sander fitted with abrasive felt (red, green or black) or a pressure washer. The product can be worked for about 10 minutes if a spatula, brush or abrasive felts are used, or from 10 minutes to 2 hours if a pressure washer is used. If the patina is removed using only mechanical equipment, at the end of the operation the wood must be washed thoroughly with water as any residue product could reduce the effectiveness of the subsequent protection treatment.

NOTES

The subsequent application of Vermeister outdoor oils must only be carried out after the surface has dried completely.

Safety precautions. Keep the product in a tightly closed, upright container in a cool place away from sources of heat. The product is classified and coded in compliance with EC Directives/regulations concerning hazardous substances. The information for the user is given in the relevant safety sheet. Empty containers or those containing slight traces of the product must be disposed of in accordance with local regulations. VerMeister S.p.A. guarantees that the details given in this sheet are provided to the best of the company's technical-scientific knowledge and experience; however, the company cannot be held responsible in any way for the results obtained with the products as the conditions of application are beyond the company's control. It is always advisable to check the suitability of the product to each specific circumstance. This sheet cancels and replaces all previous editions.
