

## TECHNICAL DATA SHEET

# IDRONET

Self-polishing cleaner for the maintenance of coated wood floors

1 Lt

### DESCRIPTION

Self-polishing fragranced water based cleaner. IDRONET carries out a dual action: it cleans dirt and revives the original finish of the floor. It can be used to clean and protect all types of coated wood floors including those finished with waterborne products.

TECHNICAL DATA CHEMICAL-PHYSICAL CHARACTERISTICS at 20°C (indicative values not constituting product specifications):	
Dilution in water	5% (approx. 1 capful per litre of water)
Recommended frequency of use	Once a month according to the traffic
Application method	Cotton cloth, Vermeister Mop
Stability and storage (in original, unopened containers stored in a cool, dry place) (months)	12
Standard packaging (Lt)	1

### APPLICATION

Dampen a cloth with IDRONET and spread evenly on the floor, in the direction of the grain of wood, if possible. If this procedure is carried out properly, the floor does not need polishing. If there are any marks, polish the floor with a dry cloth. It is very important not to apply excessive quantities of product as this would make the polishing phase very difficult. To avoid using an excessive amount of product, it can be diluted in 5% water (0.05 in 1 lt of water, in other words about 1 capful for every litre of water).

### NOTES

DO NOT POUR DIRECTLY ON TO THE FLOOR.

Shake well before use.

Store above freezing.

Safety precautions. Keep the product in a tightly closed, upright container in a cool place away from sources of heat. The product is classified and coded in compliance with EC Directives/regulations concerning hazardous substances. The information for the user is given in the relevant safety sheet. Empty containers or those containing slight traces of the product must be disposed of in accordance with local regulations. VerMeister S.p.A. guarantees that the details given in this sheet are provided to the best of the company's technical-scientific knowledge and experience; however, the company cannot be held responsible in any way for the results obtained with the products as the conditions of application are beyond the company's control. It is always advisable to check the suitability of the product to each specific circumstance. This sheet cancels and replaces all previous editions.
