

TECHNICAL DATA SHEET

CLEAN.OIL

Detergent for oil treated wood floors

1 Lt

DESCRIPTION

A strong detergent designed specifically for a thorough cleaning of wood floors treated with oils from the W.OIL RANGE, it is also ideal for removing old layers of maintenance products (soaps, waxes,...). The perfect balance of components ensures in-depth cleaning without attacking or damaging the wood fibres which, having been treated with natural oils, require particular care and attention.

TECHNICAL DATA CHEMICAL-PHYSICAL CHARACTERISTICS at 20°C (indicative values not constituting product specifications):

Dilution in water for non-routine cleaning	2-3% (approx. 1 capful in 2 litres of water)
Application method	Cotton cloth, Vermeister Mop
Stability and storage (in original, unopened containers stored in a cool, dry place) (months)	12
Standard packaging (Lt)	1

APPLICATION

For non-routine cleaning of oiled floors, dilute the product by 2-3% in water (0.03 in 1 Lt. of water, approximately 1 capful for every 2 litres of water), soak a cotton cloth in the solution, wring out and wipe over the surface of the floor. In the case of more resistant stains, pour the concentrated product onto a damp cloth and rub over the stain. It is important not to pour excessive quantities of water on the floor. Do not rinse. As cleaning with CLEAN.OIL also removes the old layers of SOAP.OIL and a part of LIFE.OIL, one of these two maintenance products must be applied after washing the floor with this detergent. To facilitate the complete removal of old oil/wax treatments and any maintenance products on coated surfaces, use a polisher with a red pad and dry any residue water that may have formed on the floor with a dry cloth.

NOTES

CONTAINS: Non-ionic surface active agents - Polycarboxylates < 5% -Preservatives – Fragrances.
Stir well before use.

Safety precautions. Keep the product in a tightly closed, upright container in a cool place away from sources of heat. The product is classified and coded in compliance with EC Directives/regulations concerning hazardous substances. The information for the user is given in the relevant safety sheet. Empty containers or those containing slight traces of the product must be disposed of in accordance with local regulations. VerMeister S.p.A. guarantees that the details given in this sheet are provided to the best of the company's technical-scientific knowledge and experience; however, the company cannot be held responsible in any way for the results obtained with the products as the conditions of application are beyond the company's control. It is always advisable to check the suitability of the product to each specific circumstance. This sheet cancels and replaces all previous editions.
